ADSL

We provide marketing leading connections from 512kbps to 8mbps with contention as low as 12:1

SDSL

Choose a symmetric broadband connection from 512kbps to 2mbps with 1:1 contention available

Leased Lines

We support lines up to 10Gbps with full end to end management backed by industry leading SLAs.

Traffic Prioritisation

Prioritise traffic on your leased line to guarantee Quality of Service for services such as VoIP

Public or Private circuits

Choose to have your connection terminated to your own virtual network or the public Internet

Best route technology

The network constantly searches our five Tier 1 providers to select the best route for your traffic

Service Level Guarantee

All servers are monitored 24x7 with a 99.9% uptime guarantee with money back penalties

OPTIONAL SERVICES

- Business Continuity / DR
- Private WAN connectivity
- Load balancing
- Scalable bandwidth

"247Desktop has been very keen to understand our business and subsequently delivers cost effective connectivity solutions to us"
