Secure Online Backup

Are you 100% confident with your tape backup solution? With data often found to be corrupt during restoration when using tapes, now is the time to make the change to secure online backup.

Worry free backups

Remove staff responsibility for managing your company's data and eliminate human error. Our backup solution is automatic and will run unattended

Key benefits

- ✓ PCs & Servers
- ✓ No more tapes
- ✓ 2 x Datacentres
- ✓ Worry free

Contact us today for a quote on **0207 1833 247** or email Sales@247Desktop.com

Increase staff efficiency

No need to rely on staff to manage your daily tape backups

Reduce your business risk

Eliminate the risk of corrupt data when restoring with tape solutions.

Most servers supported

Protect your Windows servers, Exchange Mailboxes and SQL databases

High level of security

Data transmitted by SSL protocol and stored using 448-bit Blowfish encryption

Rapid restore

Restore your data within minutes.
Select individual files or multiple folders

Real peace of mind

We replicate all our customer's data to a secondary datacentre outside of London.

OPTIONAL SERVICES

Additional storage

- Backup from 5GB and increase by the GB

Archiving options

- Up to 5 years email archiving to comply with FSA regulations

"I can get a good night's sleep knowing that my company's data is safe with 247Desktop's backup solution. Should the worst happen my data can always be restored."
